## Public Hearing Scheduled for April 13, 2021

Lake County invites you to the Public Hearing regarding transportation improvements to Hooks Street. The Hearing is being held as an agenda item as part of the Lake County Board of

County Commissioners meeting scheduled on **Tuesday, April 13, 2021** at the **Lake County Administration Building in the Board Chambers (2nd Floor), located at 315 W. Main Street, Tavares, Florida 32778**. The County Commission meeting will begin at 9:00 a.m. with the Hooks Street Public Hearing to be held after that time as determined by the Board meeting agenda. The Hearing is being conducted to provide interested persons an opportunity to express their views concerning the social, economic, and environmental impacts of the proposed Hooks Street improvements.

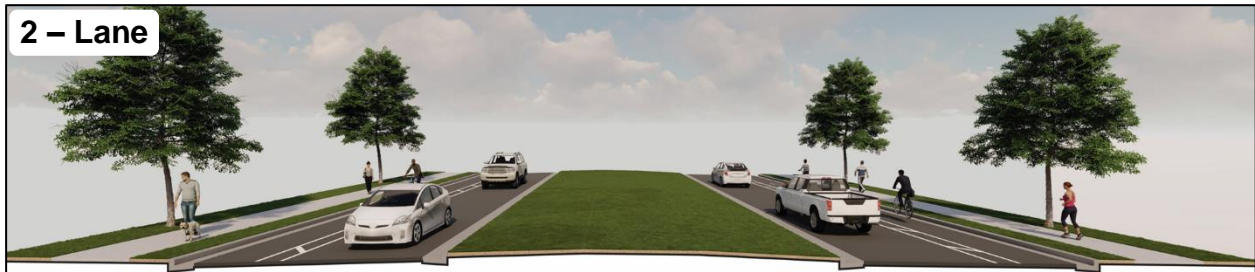

Oral statements can be made during the designated time during the Public Hearing. In addition, persons wishing to submit written comments, in place of or in addition to oral statements, may do so at the Hearing or by sending them to Seth Lynch, Project Manager, by either email ([slynch@lakecountyfl.gov](mailto:slynch@lakecountyfl.gov)) or by mail (350 N. Sinclair Avenue, Tavares, FL 32778). All written statements emailed or postmarked by April 23, 2021 will become a part of the Public Hearing record.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require language translation or interpretive services, which are provided at no cost, or those requiring special accommodations under the Americans with Disabilities Act of 1990 (ADA) may request assistance by contacting Fred Martin, Lake County Title VI/Nondiscrimination and ADA Coordinator, at 352-343-9676 or [fmartin@lakecountyfl.gov](mailto:fmartin@lakecountyfl.gov) at least seven (7) days prior to the meeting.

## Study Recommendations

As a result of the input we received and detailed technical evaluations, the study recommendation is to move forward with the Build Alternative Alignment. This alternative extends existing Hooks Street from Hancock Road to Hartle Road (CR 455) on a new alignment, as shown on the graphic on the first page.

The Recommended Alternative Alignment has two proposed typical section alternatives (two-lane versus four-lane section) that are shown below. This study alignment recommendation and the typical section alternatives will be presented at the April 13th Public Hearing. (See front page for Hearing information.)
